

## **Cores Symposium on non-ionizing radiation research and safety**

**20-21 November 2018**

**Venue: University of Eastern Finland, Kuopio, Canthia Building, Room CA101**

The symposium will bring together scientists working in the field of non-ionizing radiation, in particular among the Consortium of Radiation Safety Research (Cores, see [www.cores.fi](http://www.cores.fi)), as well as stakeholders and end-users of the research. The symposium will honor the long and esteemed career of Prof. Jukka Juutilainen as a researcher in this field. The topics for the symposium cover experimental and epidemiological studies on health effects of non-ionizing radiation as well as issues related to non-ionizing radiation safety.

### **Participation and Registration**

The symposium is open for participation. A maximum of 100 participants is allowed. There is no registration fee, but preregistrations are required by 31 October via the link: <https://elomake.uef.fi/lomakkeet/20447/lomake.html>

In connection of the symposium, a Symposium Dinner will be held on 20 November 19:00 in Restaurant Kummisetä. A fee of 50 € will be collected from the participants of the Dinner. Please indicate on the registration form that you will participate the Dinner to later receive the payment details.
